

About Us

Our primary aim is to establish world class eye care centre for common man in every district of Kerala , all over india and in abroad.

PRECISE SPECIALITY EYE CARE is started by a group of eminent eye surgeons who wished to contribute in a larger way to the eye health of the people of the India with humanitarian consideration and practice of evidence based medicine. The hospital is well equipped with state-of the art equipments, committed team and highly reputed Ophthalmologists backed by the experts in the field of the paramedics. We aim to establish world class eye care centre for common man in every district of Kerala , all over india and abroad.

CHAIRMAN'S MESSAGE

Dr. Jayaram V R

MBBS, MD (AIIMS, New Delhi)
Senior Consultant in Cornea & Refractive Surgery

"I am honored to introduce our Fellowship Programs, designed to build strong clinical expertise through hands-on training and advanced diagnostic exposure in Medical Retina and Glaucoma.

This program aims to develop skilled professionals capable of managing complex retinal and glaucoma conditions with confidence and precision, under the expert guidance and supervision of an experienced panel.

I welcome all aspiring candidates to this enriching learning experience."

Retina & Glaucoma Fellowship Programme (3 Months)

An intensive clinical training program designed to bridge the gap between theory and real-world ophthalmic practice. Fellows gain hands-on exposure to retinal and glaucoma diseases, advanced diagnostics, imaging interpretation, and modern management techniques. Through case discussions and supervised clinical training, participants develop the skills needed for confident and independent patient care.

Program Mentors

Dr. Ashok Nataraj
MBBS, MS, DNB, FMRF, LLB
Senior Consultant - Vitreo Retinal Surgery

Dr. Kiran Gopalakrishnan
MBBS, MD (AIIMS, New Delhi)
Senior Consultant - Glaucoma & Cornea

Key Training Highlights

- **Comprehensive Clinical Exposure** - Daily Retina & Glaucoma OPD experience including visual field interpretation, IOP assessment, imaging review, and patient counselling.
- **Advanced Diagnostic Training** - Hands-on exposure to OCT, OCT-A, RNFL & GCC analysis, Perimetry, Pachymetry, Fundus Photography, FFA, B-Scan, and Gonioscopy imaging.
- **Procedure & Treatment Exposure** - Observation and participation in key procedures including Intravitreal Injections, Laser treatments (LPI, SLT), Glaucoma work-up, and retinal surgical observations.
- **Academic Learning** - Regular case discussions, seminars, clinical documentation guidance, and evidence-based treatment planning.
- **Expert Mentorship** - Direct training and clinical guidance under experienced Retina and Glaucoma specialists.
- **Certification** - Fellowship Completion Certificate awarded after successful training and evaluation.

Those who are eligible and interested candidates will have the opportunity to work as Associate Consultants for a three-month period, with a stipend.

UPCOMING PROGRAMMES

FELLOWSHIP IN CLINICAL OPTOMETRY

The Fellowship in Clinical Optometry is a dynamic, hands-on program designed to strengthen clinical skills and real-world expertise in eye care. It provides advanced diagnostic exposure, comprehensive eye examination training, and expert-guided patient management, enabling optometrists to confidently manage diverse ocular conditions and excel in modern practice.
